Subject: Microsoft Settlement

Judge Kollar-Kotelly,

As a consumer I would like to comment on the proposed Microsoft settlement. I believe that Judge Jackson had the only remedy that would aid consumers.. I would prefer to purchase my computer's operating system separate from any applications. I would like to be able to select applications that I find have the features I need without them being included in the operating system.

I presently run both Windows 98 and OS/2.

Thank you,

William Usim
